W. J. CRAIG,
Sole Agent for N. W. T.

Indian Head Items.

(From our own correspondent.)

While W. Hart was engaged
digging a well on Paul Kay's place
last Tuesday, he had a very narrow
escape from being killed at the
bottom of a twenty foot well. Mr.
Hart engaged a German to take
the clay away with the windlass,
and while in the act of raising
a bucket of clay, which he had suc-
ceeded in getting to within a few
feet of the top, lost his footing and
control of the windlass, sending
the bucket to the bottom of the
well, touching the rim of Mr. Hart's
hat in its descent. Good to say, he
was taken out unhurt. The Ger-
man received a nasty cut above the
eye from the handle of the wind-
lass.

The funeral of the late C. Rob-
inson Brooks, son of Mr. and Mrs.
E. J. Brooks, took place here on
Sunday. Friends came from all parts
of the country to pay their last
respects to one whom they regarded
both as a friend and a brother.
His estimable character gained for
him many friends, and his death
has cast a gloom over the entire
district. At Kenia, where Mr.
Brooks, before his death, conducted
a branch store for his father, deep
sorrow prevails. We tender the
entire family our deepest sympathy
in their sad bereavement.

Mr. J. Hastings has moved into
his new store, where he intends to
start baking bread and pastry of all
kinds. Mr. McLean, who is a first
class baker, will run the baking de-
partment.

The bachelors are again gathering
back to town to their winter quar-
ters, all looking well. One or two
do not intend living alone, and
others are deeply impressed. The
ball room will look odd if we lose
so many of our brothers.

FORT QU'APPELLE

New H. B. Store Opened — Finest
Store West of Winnipeg—
Brief Description.

New Skating Rink to be Opened—
Union Sunday School Meeting
—Personal Mention.

The Hudson's Bay Company have
now moved into their new premises
on the corner of Broadway and
Company Avenue. The new store
is a handsome two storey stone
structure, with ornamental brick
front and plate glass windows. The
main building is 60x30, with ware-
house 60x20 attached. The base-
ment is the full size of the building,
viz., 60x50, with solid cement floor.
The ground floor of the store con-
tains dry goods, boots and shoes,
groceries and hardware, with offices
on one end. The upper floor is
laid out as a show room for blan-
kets, ready-made clothing, mantles,
crockery and glassware. The build-
ing is handsomely finished inside.
The painted steel ceiling, with a
floral pattern in relief, being es-
pecially fine. The staircase and
counters are panelled with cedar,
oiled and varnished to show the
natural grain of the wood. The
building is heated by hot air, with
registers on both floors. The Hud-
son's Bay Company are to be con-
gratulated on having erected here
one of the finest stores west of
Winnipeg. It is a decided orna-
ment to the town, and shows con-
clusively that the company have
faith in the future of this place.
The building was erected by Mr.
Chas. Payne, contractor, under
the supervision of Chief Factor
McDonald, and it certainly reflects
credit on both these gentlemen.

It is said a skating rink is to be
erected this season. If this report
is true we have no doubt it will be
well patronized. It is to be hoped,
however, that the managers will
make it distinctly understood that
the rink is for the pleasure of
the "many" and not of the "few."
"A tip in time."

A union meeting in connection
with the Sunday Schools will be
held in the Presbyterian church on
Thursday next at 8 o'clock, im-
mediately after the Thanksgiving
service, to make arrangements for
the Christmas treat. All are cor-
dially invited to attend.

Mrs. Chas. Payne and her brother,
Mr. A. Forier, received a telegram
on Monday stating their mother,
residing in Ontario, was seriously
ill. They left in time to catch the
east bound train. It is to be hoped
their parent will soon recover.

Mr. Green, of Toronto, has ar-
rived to act as clerk in the Hud-
son Bay store. The grocery depart-
ment will be in charge of Mr.
Oliver, a bold and efficient servant
of the company. Mr. J. Anderson
is manager.

Mr. J. Lochore, book-keeper of
the Hudson Bay Company, leaves
on the 30th inst. for Winnipeg,
where he is going to take charge of
the business of Mr. Alex. Calder,
C.P.R. employment agent.

We are very pleased to hear that
Mr. R. Williams, principal of the
public school, who has been ill for
over a week, is progressing favor-
ably under the careful attendance
of Dr. Hall.

Hon. Mr. Sifton at Regina.

Regina, Nov. 22 — Hon. C. Sif-
ton arrived here at 10:30 a.m., on
Saturday, and was driven by offi-
cers of the Liberal Association to
the registry office, land office and
other public buildings, with a view

to have better accommodation pro-
vided for these offices. At 2:30 in
the C. O. F. rooms, the associa-
tion presented him with an address
calling attention to a number of
matters requiring attention. The
minister replied briefly and to the
point; he eulogized Sir Wilfrid
Laurier and the good work he had
done while visiting the Jubilee, etc.
After the meeting was closed those
present were introduced to the
minister by the president of the
association, Mr. R. H. Williams.
From this meeting the minister
drove to the police barracks, visited
the buildings, and afterwards at-
tended an "at home," given by the
commissioner, at which he met a
large number of the leading citizens
of Regina, officers of the N.W.M.P.,
and members of the Assembly. In
the evening the minister received a
deputation from a committee of the
House appointed to interview, re
the overland route to Yukon via
Edmonton, the committee consist-
ing of Messrs. Tins, MacCauley,
Chink-kill, Frett, Agnew, with the
Speaker and the Executive Coun-
cil were well pleased with Mr.
Sifton's expressions regarding this
route and his promise of at an early
date sending an engineer over
the proposed road. The minister
was, during his stay in Regina, the
guest of Mr. James H. Ross, com-
missioner of public works, North-
west Government. The North-
west Government interviewed the
minister on many important ques-
tions affecting the Territories.

The Speaker's dinner on Friday
night, was a splendid success. The
absence of Mr. Sifton,
owing to C. P. R. train service, was
much regretted. Mr. Davin re-
fused to toast of "House of Commons,"
and made a rattling speech; he
was enthusiastically received. Mr.
Haultain also made a speech in
proposing the Speaker's health.
The evening was interspersed by
songs, given by Messrs. Haultain,
J. S. Dennis, Boucher and Agnew.
"The Press" was replied to by
Messrs. McInnis and Grant. It
was declared to be one of the most
enjoyable affairs held in Regina.
About fifty sat down at the Wind-
sor hotel.

It is reported that Mr. Gladstone's
health is failing

It is a painful
sight to see an
otherwise robust
man limping
along on a crutch
or cane, a sufferer
from rheumatism.
Rheumatism is a
disease that will
never attack a
man who keeps
his blood pure
and rich. There
is just one way to
do this. That is,
to keep the diges-
tion and assimila-
tion perfect and
the liver and
bowels active.

All cases of
rheumatism are
promptly cured
by Dr. Pierce's
Golden Medical
Discovery. It
creates a keen,
hearty appetite,
corrects all dis-
orders of the diges-
tion, and all weakness
of the stomach. It makes the assimilation
perfect, the liver active, the blood pure and
rich with the life-giving elements of the
food, the nerves strong and steady, and it
drives all impurities and abnormal acids
from the blood. It allays inflammation and
dispels pain. It is the great blood-maker
and flesh-builder. It does not make cor-
pulent people more corpulent. Unlike cod
liver oil, it does not build flabby flesh, but
tears down the unhealthy, half-dead tis-
sues that constitute corpulency, carries
them away and excretes them, replacing
them with the firm tissues of health.
Thousands have testified to its merits.
Sold at all medicine stores.

"I have been afflicted with rheumatism and
kidney trouble," writes Mr. C. B. White, of
Grove, Geauga Co., Ohio. "I suffered untold
pain. I was afraid I would lose my mind. At
times was almost entirely helpless. There had
not been a night for three years that I could rest
in any position. I tried Dr. Pierce's Golden
Medical Discovery. I used three bottles of it
and am well of both diseases."

Dr. Pierce's Pleasant Pellets cure con-
stipation. Constipation is the cause of
many diseases. Cure the cause and you
cure the disease. One "Pellet" is a
gentle laxative, and two a mild cathar-
tic. Druggists sell them and there's
nothing else "just as good."

THURSDAY, NOV. 25, 1897.

THE COUNCIL.

Bills are out notifying the electors of the municipality of South Qu'Appelle that a meeting will be held on Dec. 6, for the purpose of nominating candidates for the offices of reeve and four councillors. So far we have heard of no new aspirants for municipal honors, and we see no reason why the old council should be changed. Since taking office their deliberations have been conducted on business lines and in the interests of the municipality and we think we voice the opinions of the ratepayers in saying they should be returned by acclamation. It is said that Councillor Caswell desires to retire, but we trust he will reconsider the matter and stay in office and not put the municipality to the expense of an election.

HORSES FOR THE KLONDIKE

Farmers and ranchers will do well to bear in mind that there will be a big demand for horses in the spring as there promises to be a big rush to the gold fields via one of the routes from Edmonton, over which horses can be used to great advantage. For several years past our native ponies and their get have

A MOTHER SPEAKS.

Tells how Dr. Chase Saved her Boy.

His Syrup of Linseed and Turpentine a Precious Boon.

MRS. A. T. STEWART, Folgar, Ont., says: "From the 7th of January to the 24th, we were up night and day with our two little boys, employing doctors and trying every kind of patent medicine we ever heard of. At this time we did not know of Dr. Chase's Linseed and Turpentine until after the 30th, when our youngest darling died in spite of all we could do. Sometime in February the doctor told us our other boy couldn't live till spring. We were about discouraged, when I got my eye on an advertisement of Dr. Chase's Syrup.

"I tried at once to get some, but none of the dealers here had it. A neighbor who was in Kingston managed to purchase two bottles which he brought straight to us, and I believe it was the means of saving our only boy.

"One teaspoonful of the Syrup stopped the cough so he could sleep till morning. Our boy is perfectly well now, and I would not be without Dr. Chase's Syrup of Linseed and Turpentine in the house."

PRICE 25c., AT ALL DEALERS,
or Edmundson, Bates & Co., Toronto, Ont.

been somewhat of a drug on the market and were difficult to get rid of at any profit. The Edmonton route will change all this and these animals become a new source of wealth to their owners. The Dominion Government cannot do anything better to further the prosperity of the west than to give the Edmonton route the preference. It would be a god-send to our ranchers in enabling them to dispose of their stock. The west would share in the prosperity of the gold fields and money would circulate in our land as it never did before.

HUDSON BAY ROUTE

Those who advocate the opening of the Hudson Bay route might point an argument from the fact that Archangel, on the White Sea, in northern Russia, is a city of 20,000 inhabitants, situated in a latitude corresponding with Chesterfield Inlet, on the northern part of Hudson Bay, but with a more severe winter to contend with.

Vessels to reach it have to round North Cape several hundred miles nearer the pole. Yet, while its season of navigation is less than three months, the latest returns at hand report 471 vessels as arriving in a single year, and its commerce as exceeding \$6,000,000 annually.—Commercial.

TO YUKON.

Any number of railways to Yukon are already projected. The Commercial has mentioned some of these, but it is hardly necessary to say to the reading public that the majority of these schemes will never get any further than on paper. Yukon mining companies are also being formed by the score. Beware of them. Some may be all right, but the public generally will find it difficult to discriminate.

TO-DAY is Thanksgiving Day, a day set apart by government to return thanks unto God for his mercies. How many will actually return thanks is a question. The fire sufferers, for instance, and those who have almost to beg to be allowed to live; still, these same poor people have much to be thankful for. Then there is the farmer and rancher, both of whom have this year been fairly successful. Will they give thanks? Some may; others will grumble that they did not receive the earth.

It is noteworthy that closer acquaintance with the Member for North Qu'Appelle (Mr. D. H. McDonald) has materially changed The Standard's opinion of the gentleman.

Last December when the bye-election was on, it said his election would be an evil and fatal thing for his district and for the North-West.

It now finds him "modest, sensible and independent,"—three very good characteristics in a representative, and not necessarily evil or fatal.—Leader.

ON Thursday Mr. Mowat asked the Executive whether they are satisfied with the subsidy that is being received from the Dominion parliament at present? If it is their intention to make another excursion to Ottawa soon to press for such? If so, will the government at Regina be run by officials or members of the government? These questions were declared out of order, and Mr. Mowat informed he would have to ask a proper question before he could be answered.

THE Legislative Assembly has adjourned for a week to allow its members to return home to eat Thanksgiving dinner.

Coming.

This is a great opportunity for those suffering with defective eyesight to have their eyes properly examined, and advised as to requisite glasses. Nine Terrible Years

Misery and Suffering Day and Night

Paine's Celery Compound Victorious Over Liver Troubles

A Mighty Work After the Doctor Failed

If proper treatment is not resorted to in time, the results of liver complaint are terrible, often ending in death.

Mrs. McRae, of Guelph, Ont., suffered for nine long years from liver complaint. Her case baffled the skill of her physician she employed he could do no more, and the sufferer was almost hopeless. Hearing of Paine's Celery Compound she procured a supply, and soon experienced returning health and vigor. The second bottle completely cured her. Mrs. McRae writes for the benefit of all in misery and affliction; she says:

"It gives me great pleasure to add my testimony to the value of Paine's Celery Compound. For nine years I had been troubled with liver complaint, and often had very bad spells from it. Two years ago this spring I had a very bad attack of it, and called in a doctor who relieved me of the trouble, but I remained weak, and could neither eat nor sleep, and suffered so much with my head that I procured a bottle of your Paine's Celery Compound, and before I had the contents used I could eat and sleep well, and the pain in my head was completely gone. I took the second bottle, and have never been troubled with liver complaint since. Your Compound has banished constipation which troubled me for many years, and has built me up and completely cured me. I am now 64 years old and from what I know I consider your medicine the best on the market. Hoping that your valuable medicine will do for others what it has done for me is my sincere wish."

A Splendid Premium.

A Great Jubilee Picture for Weekly Tribune Subscribers.

That admirable family and general newspaper and farmers' friend, The Winnipeg Weekly Tribune, is presenting its subscribers for the coming year with a beautiful jubilee souvenir in the shape of a magnificent group picture entitled "Queen Victoria and Her Premiers." This great picture embraces true to life photos of Her Majesty the Queen; Lord Salisbury, Premier of Great Britain; Sir Wilfrid Laurier, Premier of Canada; together with pictures of the Premiers of every colony in the British empire. The collection is tastefully grouped, making a large handsome picture in several colors, convenient for framing. It will be prized not only as a splendid work of art, but will be worthy of transmission from generation to generation as a beautiful souvenir of the Jubilee year. This Jubilee picture will be entirely unlike anything heretofore produced, being prepared especially for The Weekly Tribune, and can only be obtained by subscribers to that paper.

A copy of this fine premium and The Weekly Tribune to Jan. 1, 1899, is sent to any address for \$1. The Weekly Tribune already the largest paper published in Canada west of Lake Superior, and always in the van of progress will undergo several improvements during the coming year. Address all orders to The Tribune Publishing Co., Winnipeg.

It is reported that La Minerve, Montreal will suspend publication

THE SURGEON FOILED.

Wanted to Perform an Operation.

DR. CHASE'S KIDNEY-LIVER PILLS RENDERED IT UNNECESSARY.

Too many doctors are too ready to use the knife. Many a one is sacrificed on the altar of a surgeon's ambition to operate who could be saved by the use of Dr. Chase's K-L Pills. The case of MRS. W. B. AIKEN, of Zephyr, Ont., is one in point. Her husband says that she had been doctoring with several doctors for inflammation of the bladder for over a year.

"The last bottle I got from the doctor he said if that did her no good she would be compelled to have an operation performed. I luckily picked up a sample of Dr. Chase's K-L Pills in Mr. Dufour's store, and my wife took one pill that night and one in the morning, and she has never felt the least sign of pain since. I will always keep Dr. Chase's Pills in my house for all our family complaints."

PRICE 25 CENTS A BOX.

AT ALL DEALERS.

A Grand Offer

The Family Herald and Weekly Star, acknowledged by all to be the best family paper in America, and The Progress for \$1.75. "SHOOT THE CHUTES."

THE MACHINE AN ACTOR HAS INVENTED FOR THE PARIS FAIR.

Description of the Hair Raising Device
A Machine That Will Give One Physical Thrills and Strong Mental Emotions—A Great Tunnel.

Paris bidding for mechanical and other novelties for its fair in 1900, Herbert Pattee of Philadelphia, an actor, will shortly go over to offer her a combination of the Ferris wheel, "shoot the chutes," a toboggan slide and "scenic railway."

The device consists of a gigantic wheel 200 feet in height, and with a steel frame composed of a network of braces. Its structural details and the towers which support it look not unlike the Ferris wheel. The great difference is that, instead of having cars suspended between the two outer rims, or the periphery of the wheel, this space is inclosed and laid with stout flooring, giving the whole the appearance of a gigantic bicycle wheel with a broad, flat tire. Upon this floor and in the inside of the wheel is a great trough with sides rising three feet above the bottom, and in this trough are laid stout steel tracks. Cars rest upon these tracks, and the object of the invention is to cause these vehicles, filled with people, to be carried up a certain distance into the air by the wheel, then shot down the incline with the speed of the wind and up the other side by momentum.

The wheel Mr. Pattee has designed has two tracks around the inside of its rim, each sitting into a separate trough of its own. The cars are about six feet wide, fifteen feet long, and eight feet high. The seats, which run from side to side, are surrounded by a barrier, reaching up to the passengers' shoulders when seated. Above this extends a canopied roof, with the sides luted with wire screens, so that the whole forms an inclosed pavilion.

The wheel begins to revolve from left to right, and the car is carried up about 70 feet to a point one-third the distance from the bottom to the top of the wheel. The car is gripped to the tracks with lateral arms, spreading out on either side, and clamping themselves slightly to the tracks and trough by the turning of a lever in the hands of a motorman. When the cars have reached the height of 50 feet the motorman releases the lateral arms and the vehicle shoots down the incline at a terrific rate of speed and up the other side, the wheel stopping during the descent. There is a pond of water in the inside trough, which flows around at the lowest level. It can find, and is consequently always at the bottom of the wheel. As the boat-like vehicle descends it dashes through this water, reproducing the sensation experienced in "shooting the chutes," and surrounding the people with a shower of spray, which does not wet them, because it is hurled away from the car. At night, when the wheel is surrounded by thousands of colored electric lights, the effect of this many-tinted spray will be most effective.

The impetus of the car is very great when it finishes the descent, and even though splashing through the pond breaks its force, the vehicle is still able to dash up the opposite curve of the wheel for a distance of about 40 feet, where it is again automatically clamped to the tracks. The wheel then begins to revolve again, and the car is carried down and up to a place corresponding with its first starting point. The people ride backward up this incline, thus experiencing a most remarkable sensation. When drawn up for a distance of about 70 feet the car is again released, and makes its second shoot. A third return to this height and another sliding backward completes the journey. During the shooting the car has covered just one third of the circumference of the wheel. As the structure stops during each coasting process, the wheel has, therefore, made one complete revolution, and the excursionists alight at exactly the same place that the start was made.

This is the invention in its simplest form, but the joy may have been added novelty of a most sensational type, experience unlike anything of the kind thus far invented. The tunnel will be built on the tracks on the inside of the wheel, extending about half way around, or 300 feet of the 600 feet total circumference. Its two entrances, or mouths, will be modeled to represent the open jaws of dragons. The interior will be intensely dark, with hundreds of little stars glimmering all about and apparently far beneath the towers, the roofs and gables and many-lighted windows of a great city, giving the whole the effect of a bespangled midnight sky, through which the voyagers are speeding in a twentieth century airship. As the tunnel roof will curve sharply, following the outlines of the rim of the wheel, the voyagers, while in the tunnel, will only be able to see a few feet to the front or rear, further vision being cut off by the sloping roof and floor. Thus the effect of mystery will be greatly enhanced.

Mr. Pattee is now busily engaged in perfecting the lighting apparatus for his fantastic wheel. Thousands of colored incandescent lamps—of every color of the rainbow—will be used in outlining the outer rim, the spokes, and the supporting uprights. An automatic switching device will illuminate the cars with fairy lamps until they enter the tunnel. Then the lights on the cars will be extinguished, and the scene of lamps placed

along the roof of the tunnel will be illuminated and extinguished as the cars pass directly beneath them, thus showing the people outside where the car is in the tunnel, and exactly when it is about to emerge therefrom. Besides this novel arrangement, an automatic attachment will cause the waters of the pond to be illuminated with different colored electric lights every time the car dashes through it. The car passes it three times, once while in the tunnel, and then its showers of spray are suddenly encountered apparently far above the clouds in the starry vault of heaven, and an effect extremely startling and unique is produced.

The superstructure is now being planned by the engineers of a prominent bridge building company near this city, and will be made so strong and so carefully braced that breaking will be an impossibility. Besides the axle of the wheel resting upon upright towers or fulcrums, the outer rim will be provided with teeth fitting into the machinery on the ground operating the wheel. Then on either side of the interior tracks the three-foot barricades will form a trough into which the car fits. Each vehicle will run upon three tracks, the centre one being fitted with a slot similar to that on street car cables. The cars each have a keel running along their bottoms from end to end and shaped like a capital T inverted, the vertical strip sliding into the slot, and the horizontal piece running inside the groove, thus locking the car to the track and making escape from it impossible, even though the device does not interfere with the motion. Besides this track, there is to be a ratchet construction, working automatically, which allows the car to slip over a long line of teeth, and which will hold it securely wherever it is brought necessary. These devices for the safety of the cars will make assurance doubly sure, and added to this Mr. Pattee has been wise enough to make all the machinery so strong and simple in design that it cannot break or get out of order.—Philadelphia Times.

Would Any Sane Housekeeper Use Oleomargarine?

DANGER IN ANOTHER DIRECTION.

Would any sane housekeeper in Canada buy oleomargarine or imitation butter instead of the finest production of the creamery or dairy? We think our Canadian women are too wise to be deceived in this important matter. Lard colored to resemble good butter will never be acceptable to our people.

There are, however, other deceptive agents that sometimes find their way into our homes; we refer to imitation and adulterated package dyes for home dyeing. Some dealers sell imitations of the celebrated Diamond Dyes. The contents of these imitation packages carry ruin and disappointment to every user.

A few dealers, for the sake of long profits, are now selling soap dyes composed of a very large amount of common grease and an infinitesimal quantity of coloring matter. Such dyes, after trial, have been found weak and uncleanly, giving dull and muddy colors, fading quickly in washing and sunlight.

As millions of thrifty and experienced women already know, the Diamond Dyes are the only reliable home package dyes, having stood the tests of long years. Diamond Dyes are easy to use, and give brilliant and lasting colors that cannot be equalled by any other make.

THE COW BOY'S PRAYER.

The following story, given in a recently published sermon, must be regarded as a somewhat lively form of pulpit illustration:

Let me give you an instance of one who, though not a member of any church, is still a child of God. On the lone prairie a number of cowboys were called to perform the last rites of a comrade who had accidentally met with a sudden death the dead comrade had been a great favorite with his chums, so their grief at parting with him, and their anxiety for his future welfare, induced a strong desire on the part of each remaining one of his associates to hold a religious service. Not one of them, however, could sing or remember a sacred song that he had ever heard. Not one of them could think of a prayer, and they found themselves in a fix. But at last Ben, one of the lot offered to put up a prayer, and in all sincerity he began: "O Lord, I guess in your opinion I am pretty tough, but I ain't saying anything for myself, it's for Biggs. He's dead now, but, O Lord, he's got something down in him as pure as steel, and O Lord, he's got a heart in him as big as a mule. I'll tell you what he done the other day; he gave a sick Mexican a pound, nursed him through a fever, and the fellow hadn't been well more than a week when he stole Biggs' saddle pockets. O Lord you must not go back on such a man as that, because they are scarce

in these parts. O Lord, if Briggs gets half a chance he'll make as good a record where he's gone to as here."

Sir Wilfrid Laurier, Diplomatist

By A. M. R. Gordon, for the Montreal Witness.

I live on Canada en Bas—
De fines' lan' you see—
An' Uncle Sam, a f'ren' of mine,
He live nex' door to me.

Now, long tam', Sam an' me mak' trade
Whenever dat we meet;
An' Sam, he drive de bargain hard—
Sometime, bigarre, he cheat!

I not say mooch about it, me;
I nevair tink no harm
Befor I tin' mon uncle, Sam,
Him wan' my little farm!

An' wen I not to heem will give
De lan' me fader hewu,
Deu Sam get mad an' say to me:
'I'll play my hand alone!

'You kip away! I not will trade!
Don' come my place about!'—
Ah! den I see hees little game
'Was w'at you call freeke-hout.

Mais, I can' stan' de fros', for hico
To me is not'ing new,
Sir John mak' freeze agains' de Yanks—
See if dey lak' it too!

But wen Sir John t'row up his han'
An' die, 'twas change' indeed!
No part'ner lef' could follow up
De fine ole chieftain's lead!

An' de Canadian peup' was tire',
For dey was not mooch please'
For pay big price for jus' to nurse
'Les enfants industries'!

Dey say: 'We wan' to buy our t'ing
On some mooch cheaper shop!
Dose enfants industries are, sure,
Long tam' for growing hup!

'For eighteen year' dey pull l'argent
From bottom of de purse!
We tink it ees long tam' enough
For dem to be on nurse!

Den Tories try for bargain mak'
To trade wit' Sam again,
But was shok' off, as soon dey spik'
By Monsieur Jacques G. Blaine!

He say: 'My f'ren's, before we will
Wit' you reciprocate,
You mus', agains' 'Ole Anglan', mak'
One sharp discriminate!

Dat took dem Tory b'reat' away!
Dey drop de bees'ness den!
No more dey goon Washington,
Nor write dere wit' de pen!

By'mbye, las' year, our Canada
Tinks she know what she wants,
An' wit' her toe, de mou't of June,
She kick de Tory pants!

She sen' for Laurier, an' at once—
Immediate—he come.
She say, 'Instead of one boule-dogue
I'll have one gen'homme!'

Sir Wilfrid, soon he tak' de chair,
An' dis he plainly state:
'FOR Anglan'—not AGAIN!' her—
Will mak' discriminate!

'If Uncle Sam, from out his lan',
Will keep Canadian men,
We'll do de sam' to Yankee, too—
An' w'at will he do den?

'We'll play de game all sam' lak' heem,
An' mak' one alien law!
An', more, bigarre, we'll hear him squeal
When he is he is hors de bois!'

Den Uncle Sam, he scratch bees he head
An' say, 'Dat's quit' enuff!
I see Sir Wilfrid Laurier's vat
You might call 'up on snuff!'

So wen Sir Wilfrid go to talk
'Bout dem Pacific seal,
Mon Uncle Sam tak' him one side
An' mak' him smoot' appeal.

'I lak' Canadian, yes, for sure,
I wan' for to be your f'ren'!
'We lak' you, too, Sir Wilfrid say,
'But—only now an' den!

'For wen you kick Canadian hout
An' tink to mak' a fuss
Agains' de Mother Lan', we say:
'You cannot bully us!'

'Jen' so!' say Sam, 'we mak' hall right!
We tak' de whole dat back!
Wit' me an' you, an' Anglan', too,
It mus' be "give an tak'!"

'Correc'!' Sir Wilfrid rise an' say:
Den Sam an' he shak' han'
To live no more lak' chat et chien,
But lak' les bon voisins!

Den Wilfrid, he come home again,
An' t'ings go well partout!
De markets rise, de trade increase—
Prosperitie renew!

DR. AGNEW'S HEART CURE.

RELIEVES IN 30 MINUTES.

A MAGICAL LIFE-SAVER.

The most pronounced symptoms of heart disease are palpitation or fluttering of the heart, shortness of breath, weak or irregular pulse, smothering spells at night, pain in region of heart. The brain may be congested, causing headache, dizziness or vertigo. In short, whenever the heart falters, aches or palpitates, it is diseased, and if life is valued, treatment must be taken. Dr. Agnew's Cure for the Heart is the only remedy yet discovered which will always give relief in 30 minutes, and cure absolutely.—28.

Nov. 23.—Barometer reduced to sea level, 0.103.

Local and General

—Wheat, 71 cents.
—G. H. V. Bulya, M. L. A., returned from Regina Tuesday evening.

—D. H. McDonald, M. L. A., returned on Tuesday evening from Regina.

—A case of scarlet fever is reported in town. The house has been quarantined.

—The Northwest Assembly has changed its fiscal year so as to run with the calendar year.

—Parties wishing to winter cattle, apply to R. J. Johnson at once as he has 500 head to winter.

—A letter from J. A. Longpre, general merchant and postmaster, Lebec, informs us that he opened out his new store and is well pleased with prospects.

—Samuel Shannon, one of Regina's oldest and most esteemed business men, died on Thursday last from heart failure of the brain.

—S. F. Gibson's new feed, sale and exchange station, corner Pacific Ave. and Walsh St., are now open. Charges moderate. Careful and obliging attendants.—Ad.

—Parties desiring to attend divine service in any of the churches during the winter, can do so by sending in a card to the church, and a horse will be made. For only a small charge at each church.

—W. Johnston, our tinmith and stove dealer, is busy as a bee in putting in new stoves, for which the demand is great. The more, in connection with his daily camp stove, we think will find the tin.

—The new building presented to the section of the Family Herald and Weekly Star, Montreal, is creating a surprise, a sensation and a boom. We hear that the demand for the paper exceeds the supply of the kind in this country.

—Rev. L. Storch, missionary to the large German settlement north of Moose, was in town yesterday soliciting funds to assist in the erection of a church, and met with fair success. An one wishing to contribute to this good work can communicate with him at Hyde Park, via Grenfell.

—In the drawing competition, held last night at the Leland, N. Grenfell, drew the first prize, W. G. George the second, and a third prize, W. G. George. One gentleman won all the way from Touchwood to take part in the drawing and was somewhat disappointed in not getting the check.

—E. T. Edwards, whose wife died here recently on a severe chest ailment, has been able to leave her bedside, a great deal, having found the cure, the steam, cupress of China, of which he is an officer, having arrived. Mr. Edwards proceeded to bed last evening, accompanied by his children.

—The many friends of Tom Weal will be sorry to hear he has had to go to Winnipeg to have his eye examined by Dr. Harvey Smith, who says it is impossible to restore the sight. He is putting him under medical treatment for ten days with a view to an operation to prevent a further danger, which, if found necessary, will put him in a Winnipeg at great expense for a considerable time.

—The Canadian Pacific Railway excursion commences Dec. 6th. Considerable reductions in rates have been made over former years. It is expected that travel will be heavy, and many will visit their homes in Ontario and the lower provinces who have been unable to do so heretofore. People for New Brunswick can also take advantage of these rates to Sydney, where a new steamship line has been inaugurated to Pictou.

—Registered at the Leland: W. B. Abbott, W. Stett, W. McFarlane, F. Whitehead, D. B. McLeod, Ed. Sait, Winnipeg; J. Adams, Quebec; Z. G. Goldberg, A. Beaton, R. J. Smeaton, Montreal; J. Gordon, Toronto; Rev. Canon Flett, Indian Head; Rev. C. Streich, Grenfell; D. McDonald, Fort Qu'Appelle; D. Quinn, N. W. P.; W. T. W. J. J. Borde, Calgary; J. Love, Touchwood; H. S. Gooder, Ripon, York, Eng.; A. E. Merritt, Chatham, Ont.

—A large and enthusiastic meeting was held in the Leland hotel on Friday last for the purpose of electing officers for the ensuing year for the Heaton Curling Club. Curling never looked brighter here than it does this winter, and it remains to be seen whether the club will retain its well-earned reputation of possessing ranks second to none in Manitoba or the Northwest. True, the club did not do quite so well at the bonspiel last winter as in former years, but this was owing to a certain lack of interest and the absence of some of our most enthusiastic members. The ice is now be-

ing got really and the club expect to get to work this week. The following are the new officers: B. Harvey, pres.; Dr. Henderson, vice-pres.; J. P. Beauchamp, sec.-treas. (re-elected).

Heart Rescue in 30 Minutes
after momentarily expecting for years that death might snap the vital cord at any minute. This is the story that can be told and have told of the almost Divine formula Dr. Agnew's Cure for the heart. Every day chronicles the taking away of many who have not heeded nature's warnings that the heart was tired out and needed the helping that this wonderful cure gives. Heart disorders are inside us. Don't trifle. This great remedy attacks the disease instantly. Sold by Henderson & Parker.

—We are pleased to see Canon Flett around again on his inspection tour. The thoroughness of his work and the gentlemanly manner in which he conducts his work both in the school room and out of it is much appreciated by the public generally. He is known to be an impartial inspector, who does not hesitate to give an adverse report when necessary. The new addition to our school room and the standing of the school is highly satisfactory.

Itching, Burning, Creeping, Crawling
Skin Diseases relieved in a few minutes by Agnew's Ointment. Dr. Agnew's Ointment relieves instantly and cures Tetter, Salt Rheum, Scald Head, Eczema, Ulcers, Bores, and all eruptions of the skin. It is soothing and quieting and acts like magic on all Baby Humors, Irritation of Scalp or Itches during teething time. 35 cents a box. Sold by Henderson & Parker.

—The young man mentioned in these columns last week as decamping and leaving several to mourn his departure, was arrested at Indian Head and brought back for trial before magistates Henley and Brown. He had sold the watch and pawned the coat obtained from one of our merchants, and it was only through the remembrance of the pawn ticket that he was permitted to go under suspended sentence, he promising to pay for the articles in three months. In the meantime he is under police surveillance.

The Most Prominent are Fashionable.

Dyspepsia or Indigestion has become a fashionable disease. There are very few people who have not at various times experienced the miserable feeling caused by defective digestion. No person desires the keen suffering of the body, and the anguish of mind endured by the dyspeptic. Dr. L. L. Loring, of 335 Pine Ave., Montreal, says, "When I ever run across chronic cases of dyspepsia I always prescribe Dr. Chase's Kidney-Liver Pills, and my patients generally have quick relief."

Why Don't We See Things in Their True Light?

Consult the eye expert for the world renowned Lemaire Optical Company London, Paris, and New York, and have your eyes properly examined by the above authority on optics. Can be consulted free of charge at Henderson & Parker's, sole agents for Qu'Appelle, to Dec. 9th only. Consultation and examination free.

CONFIRMATION SERVICE

By the Bishop of Qu'Appelle, at the Pro-Cathedral, on Sunday Last.

On Sunday last there was a large congregation at the 11 o'clock service, to witness the confirmation of eleven candidates who have been under preparation and been looking forward to this solemn occasion for some months past. The Bishop's address to the candidates was deeply earnest and impressive, as must have been felt by the congregation as well as the candidates themselves, as the Bishop called upon all present to call to mind their own confirmation and to review their life since.

The Bishop arrived on Saturday from the west, on the delayed train, after visiting congregations in the south and west of the diocese, and on account of the interruption to the railway traffic, had been detained longer away from home than he had expected, and was consequently obliged to return immediately after the service to Indian Head. The Bishop had expected to spend the whole day in this parish, and preach at the evening service, and was sorry to disappoint those who were looking forward to seeing and hearing him.

THE EIGHTY WILL SUFFER

In Every Hundred From Catarrh, Have a Friend Indeed in Dr. Agnew's Catarrhal Powder.

"I was a catarrh sufferer for many years. Dr. Agnew's Catarrhal Powder has done me a great service. I tried every remedy in the category of catarrh cures with at any permanent relief. After taking only a few doses I received great benefit, and in a very short while my catarrh had disappeared. I am satisfied it is the best, safest and quickest remedy known for this malady today." J. A. E. Ball, Pandora, O.
Sold by Henderson & Parker.

Awarded

Highest Honors—World's Fair, Gold Medal, Midwinter Fair.

OPENING OF NEW STORE

We are pleased to inform the public that our new store is now open for business, and that we are showing a fine assortment of new season's goods in

FURS,

CLOTHING,

MANTLES,

DRESS GOODS,

FELT BOOTS,

RUBBERS,

MOCCASINS,

Etc., Etc.

We have also put in stock a carload of New Groceries, which we are selling at specially low prices

Our store is large, warm and well lighted, and customers will find everything shown to advantage, and will have full opportunity to examine our goods and compare prices.

We invite the public to call and see us, and can assure them that their visit will repay them.

A Great Victory

The eye expert of the world renowned Lemaire Optical Company of London, Paris, and New York, will be at the store of their resident agents on days mentioned below. He corrects the most difficult cases of defective vision where others fail using the most advanced methods of testing the eye. Call and see him, and have your eyes examined. The eye expert will be in Qu'Appelle Dec. 9th only, at the store of Henderson & Parker, sole agents for Qu'Appelle, N. W. T.

Chickney Chirpings.

(From our own correspondent.)

Our public school closed on the 11th inst. for the winter months. Mr. C. G. Brown, teacher, left on the 12th for Indian Head.

W. M. Tate has returned from Qu'Appelle Station, after an absence of several months.

Mr. Coulthard, our genial stone mason, is once more back in our midst.

Mr. and Mrs. Brown, of Indian Head, paid us a visit a short time ago.

Winter settled in early this year. The snow in some places is over a foot deep.

The high price of wheat is causing a lard boom in this locality.

F. W. Newberry has left this port for Winnipeg, en route for South America.

This year our school taxes are only \$3.36 per quarter section.

A Mean Man.

A man may use a wart on the back of his neck for a collar button; ride on the back of a coach or a train to save interest on his money until the conductor comes around, stop his watch at night to save wear and tear; leave his "I" and "it" without a dot or cross to save ink; pasture his mother's grave to save corn; but a man of this kind is a gentleman and a scholar compared to a fellow who will take a newspaper, and when asked to pay for it puts it into the post office and has it mailed "refused."—Bill Nye.

Where Specialists Failed Dr. Chase Cured Catarrh.

James Spence, Clachan, Ont., writes: "I had been a sufferer from catarrh for fifteen years. It had become chronic and I had given up hopes of ever being cured when advised by a friend to try Dr. Chase's Catarrh Cure. I at once started and am pleased to state three bottles effected a complete cure, and I heartily recommend it to anyone suffering from catarrh."

The British parliament will not meet till February.

MARRIAGES.

SMITH—MIDDLETON.—At Qu'Appelle, Nov. 24th, 1897, by the Rev. S. W. Thompson, B.A., James Smith to Elvina Middleton, both of Qu'Appelle.
